FOR IMMEDIATE RELEASE

**EAGLE NORTH AMERICA, INC.
ANNOUNCES EQUIPMENT RENTAL & LEASING PROGRAM**

EVANS, Georgia (September 10, 2007) – Eagle North America, Inc. (Eagle) a privately-held inland dredging and dewatering company based in Evans, GA, announces a new Equipment Rental and Leasing Program containing a wide range of mobile dredging and dewatering equipment designed to meet a variety of needs for a number of industries throughout the United States.

“Pulp, paper, chemical, utility, mining, steel, agriculture, pharmaceutical, food and other manufacturing plants rent our equipment, with or without technicians, by the day, week, month or year(s) all based upon their particular requirements and budgets”, shares Marvin Brown, President and CEO of Eagle North America, Inc. “We can react very fast to both the planned and unplanned needs that industrial plants run into from time to time”, Mr. Brown adds.

In addition to its full service nationwide dredging and dewatering operations, Eagle’s Rental and Lease Program includes a wide range of belt filter presses, plate & frame filter presses and mobile hydraulic dredges. On-site delivery, set up and training are all provided by the Eagle team of field experts including OSHA & MSHA trained technicians if required.

Included in the rental and lease fleet are:

Dredging Equipment:

- 10" Cutter Suction Dredges - DSC Swingwire/Swinging Ladder
- 8" Horizontal Auger Dredges – Ellicott Mudcat 915
- 8" Horizontal Cutterhead Dredge - H & H

Dredging Equipment (continued):

- 10" Horizontal Cutterhead Dredge - IMS 4010
- 6" Horizontal Cutterhead Dredge – Stainless steel – Remote control
- 6" Horizontal Auger Dredges – Ellicott Mudcat SP810

Dewatering Equipment

- Andritz 2.0 Meter SMX-S8 High Pressure Skid Presses
- Andritz 2.0 Meter LP-7 High Pressure Presses
- Phoenix 2.2 Meter HS-8 Skid Mounted Press
- Edward & Jones Plate & Frame Filter Press 1500mm
- JWI 413f³ Plate and Frame Filter Presses
- JWI 217f³ Plate and Frame Filter Presses
- JWI 213f³ Plate and Frame Filter Presses – trailer mounted

"Meeting the on-demand needs of our customers is our goal, whether you need a hydraulic dredge, a skid mounted fully operational 2.0 meter belt filter press, or our trailer mounted 213 cubic feet plate and frame filter press, Eagle has the right equipment to do the job", states Dennis Allen, Vice President of Operations.

To learn more about the new Eagle Equipment Leasing Program, contact Dennis Allen, Vice President of Operations (706-860-7737 ext. 116; 706-825-9546 (cell); dallen@eaglena.com) or view the variety of equipment available for rent or lease at www.eaglenorthamerica.com.

About Eagle North America, Inc.

Eagle North America, Inc. (Eagle), a privately-held inland dredging and dewatering company based in Evans, Georgia, has been servicing major industrial clients in the pulp, paper, utilities, mining, chemical and manufacturing sectors since 1993. Providing innovative solutions to industrial waste and residual management problems is Eagle's mission and passion. Complying with all the environmental rules and safety requirements in today's highly regulated environments is Eagle's specialty. Eagle's experienced team of more than 80 professionals work on projects throughout the continental U.S. and Canada, including completed projects in remote locations in Alaska and Hawaii. For a number of years and to the present, the variety of Eagle dredging and dewatering projects has provided vast experience that applies to jobs of any scope or scale.
